UKRAINE: AN EXERCISE IN DISCERNMENT

For those of you who have been attending our ECSU meetings since we began in December 2020, you should be much better skilled at the task of discernment.

Discernment is the ability to sort through a large confusing blitz of information, disinformation and misinformation, and propaganda – to be able to analyze and evaluate what you are hearing and reading.

The UKRAINE crisis is a perfect opportunity to hone your skills. Several key points will be offered here to help you figure out what is really going on...

First – remember **ALL AMERICAN MEDIA is compromised, managed, and controlled**. There is NO TV CHANNEL that is free from the control of the global elite. Major radio corporations are also heavily controlled as well. And yes, it is a conspiracy. And yes, it is true.

The true role of our media is to mold our thinking and move us toward a particular point of view – such as being willing to support the US efforts toward a new conflict or war. They do not provide “news”.

In 2012 the United States Congress passed the Smith Mundt Act, which allowed propaganda to be used inside our country...directed upon the American people. Prior to that, directing propaganda on our own citizens was illegal. Read more: <https://citizentruth.org/government-allowed-use-propaganda/>

So where does one go for real news, good solid information, and truth?

That is the 64-million-dollar question of our day! It is not easy. In fact, search for dependable information is hard work these days.

We go the independent non-corporate alternative media. Are they all dependable? Sorry to say they are not.

It has taken us 10-15 years to sort out good sources and that process is continual and never stops. We constantly evaluate writers, analysts, and websites. We watch them over time and note inconsistencies and times where they appear to go off track. Then the analyst/website gets closer scrutiny and sometimes gets eliminated from our list. This is part of the hard work.

Back to the UKRAINE situation! Some hints of information you might research on your own:

ELBERT COUNTY STANDS UP

Did you know that in 1991 shortly after the breakup of the Soviet Union, there was an agreement that NATO/US would not move eastward – a very threatening move for the new Russian Republic. A link is provided to get you started with your research:

<https://www.euroweeklynews.com/2022/02/20/has-nato-reneged-on-a-1991-agreement-with-russia/>

Do you remember the Obama administration conducting a coup – an overthrow of the then-legitimate government of the Ukraine? The US installed a Nazi-like regime in the Ukraine....do you think the Russians may have some concerns about this? Again, a link to that information:

<https://www.strategic-culture.org/news/2018/06/03/how-why-us-government-perpetrated-2014-coup-ukraine/>

Another good source: www.paulcraigroberts.org

Next: governments have a long history of creating a crisis, then blaming others! It is a tool used to move the thinking of their people to a particular conclusion. Right now – the media propaganda is demonizing Putin and accusing him of “being crazy” etc. I’m just waiting to hear that he strangles small kittens and eats them for breakfast. (sarcasm alert). They are accusing Putin and Russia of being capable of various atrocities.

This can be a set up for a false flag - an event actually perpetrated by our own government and blamed on another. Information about false flags are below in three different links:

<https://civilrights021.blogspot.com/2022/02/false-flag-what-are-these-attacks-and.html>

https://www.lewrockwell.com/2013/09/no_author/false-flags/

<http://ronpaulinstitute.org/archives/featured-articles/2018/april/17/false-flags-are-real-us-has-a-long-history-of-lying-to-start-wars/>

DISCERNMENT: Do we always get it right? No.

Are we always questioning everything, even the actions of our own country? Yes.

WHY? Because nothing is as it appears on the surface.

You have to search for TRUTH.

FINAL COMMENTS: Utilize your tools and skills of discernment.

Do not just trust the “news” you hear even on Fox News or from “conservative” commentators. (Controlled opposition – a topic for another day).

Search for information. Challenge what you hear, even from sources you trust.

ELBERT COUNTY STANDS UP

DO NOT FALL FOR UNITED STATES INVOLVEMENT IN ANOTHER WAR.

The war our globalist friends want now is to hide the financial destruction of our country and others which has been on-going for many decades.

It's all about the MONEY.

The all-out financial assault on the American people has a long history. Recent attacks include the disastrous lockdowns of American small businesses in 2020. This was the worst financial disaster ever in our country, yet that point is not often mentioned by the mainstream lying media. It is just ignored. However, the damage created is still felt to this day. It was a direct attack on middle class working citizens – lost jobs, lost businesses – pure destruction.

The globalist goal is to digitize everything – including every financial transaction YOU make! Once they accomplish this – and they are very close – ALL YOUR FREEDOM WILL END, PERHAPS FOREVER.

WAR is great cover for their actions and an even better distraction to keep Americans from paying attention to their goals and the small subtle changes they use to achieve those goals.

It must also be noted - they need Americans to forget about the increasing numbers of deaths and injuries from the dangerous covid injections...watch the insurance data.

SO PLEASE, EMPLOY ALL YOUR SKILLS, DO YOUR RESEARCH, AND TELL OTHERS NOT TO FALL FOR YET ANOTHER WAR, WHICH STEALS OUR OWN FREEDOMS AND STEALS THE LIVES OF OUR AMERICAN TREASURE, OUR MILITARY MEN AND WOMEN WHO PAY THE ULTIMATE PRICE.

THANK YOU.

Maggie Witherbee
